The moving pictures, which ermit Americans to see an event that coursed in Australia, are said to be occurred in Australia, are said to be perfect in every way and are marvels of the photographer's art. They were taken in the open arl, however, and the conditions were ideal, as the platform on which the fight occurred was elevated, and the day was bright and summy. The full 14 rounds will be shown and will be accompanied by an intelligent lecture.

Animals Poor as Sailors.

The polar bear is the only wild animal that likes a trip on the water, according to a French scientist, who has studied its behavior at sea. He is quite joily when aboard ship but all other animals violently rezent such a voyage and vociferously give vent to their feelings until seasickness brings silence. The tiger suffers most of all. He whines pittfully, his seyes water-continually and he rubs his stomach with his terrible paws. Horses are bad sailors and often die on a sea voyage. Oxen are heroic in their attempt, are amenable to medical treatment. A good remedy is a bucketful of hot water contaniing three and a hair pints of whiskey and seven ounces of quinine—Fur News.

A Church for Every 20 People.

Bates City, Mo., a pretty little village seven miles east of Kansas City, has more churches in proportion to the number of its inhabitants than any other place in Missouri. The village contains only one hundred persons and five churches, and all of them substantial buildings. For several years there were only four churches there, but the fifth was completed yesterday and it will be dedicated Sunday. The new church was built by the Reorgalzed Latter Day Saints. The other denominations which bave churches in Butes City are the Presbyterian, Southern Methodist, Baptist and Christian.—Kaussas City Star.
